

SHB 1671 - H AMD 57

By Representative Walkinshaw

ADOPTED 03/02/2015

1 On page 2, beginning on line 33, after "overdose." strike all
2 material through "professional." on line 36 and insert "At the time
3 of dispensing an opioid overdose medication, a pharmacist shall
4 provide written instructions on the proper response to an opioid-
5 related overdose. The instructions must be affixed to the container
6 in which the medication is dispensed and must inform the recipient
7 to call 911 and seek medical attention immediately."
8

EFFECT: Removes the requirement that a pharmacist affix a label on the cap of the prescription. Requires a pharmacist dispensing an opioid overdose medication to provide written instructions on the proper response to an opioid-related overdose. Requires the instructions to be affixed to the container in which the medication is dispensed and to inform the recipient to call 911 and seek medical attention immediately.
